Connect Vending

project

Office expansion by adding a Mezzanine floor over a Bank Holiday weekend

### background

Connect Vending occupy industrial space in Oxfordshire and had a ground floor office with wasted space above it. They needed to expand and we put forward a innovative scheme to install a mezzanine floor above their occupied space out of hours with no downtime.

### scope

- > Occupied space fit out with installation of mezzanine floor into occupied space over 4 day bank holiday weekend with no downtime to the business.
- > Fit out
- > Furniture

### services

- > CDM, Health & Safety Duties
- > Project Management
- > Space Planning & Design Consultancy
- > Office Relocation / Churn
- > Structural Modifications

### design

- > Break out & Tea Point Facilities
- > New Toilet and Shower Facilities

### construction

- > Air-conditioning modifications
- > Carpeting
- > Frameless glazing
- > Suspended ceilings
- > Wall finishes
- > Mezzanine Floor
- > Decorating
- > Partitioning
- > Voice & data installation

### furniture

- > New desking, seating & storage

### client comment

"We were delighted with the scheme Space-pod put on the table to use our double height wasted space to install a mezzanine above our existing office space. We were even more surprised when they came up with a scheme to carry out all the disruptive works over a single bank holiday period ensuring our staff had no downtime at all."
