

The image shows a bright, modern office meeting room. A large, curved, light blue screen is positioned on the left side of the room. In the center, there is a round, light-colored table with a metal base, surrounded by several grey office chairs. On the table, there is a bowl of oranges, a glass of orange juice, and a water dispenser. The room has large windows on the right side, providing a view of a green landscape. The floor is a light blue-grey color.

## Link screens

Flexible screens work equally well for space division or by combining them with multiple, soft Smartworking products to create effective, semi-enclosed working and meeting areas within any open plan workplace. They provide the opportunity to divide open spaces and create closed or partially closed modular rooms for private meetings.

# Link screens
