

project case-study

client Trintech
project Dublin to Hatfield Office Relocation & Fit-out

background

Trintech acquired the UK checkmate operation and as part of the acquisition relocated the main office to Hatfield.

We were tasked with fitting out the new space to suit their requirements, relocate 90 redundant workstations from their Dublin Head Office and relocate the staff.

scope

- > Fit out
- > Furniture
- > Relocation

services

- > CDM, health & safety duties
- > Office Relocation / Churn
- > Project Management
- > Space Planning & Design Consultancy
- > Managed IT moves

design

- > Break out & tea point facilities
- > Comms room design and installation
- > Emergency systems
- > Front of house client suites

client comment

"We chose Space-pod because they really listened to our requirements and put forward a solution that reflected our requirements and also were prepared to dismantle and service 90 workstations from our Dublin office, ship them to our new Hatfield office and re-install them.

This gave us a considerable saving over purchasing new office furniture and also allowed us to let our space unfurnished to a new sub tenant in our Dublin office".

construction

- > Air-conditioning modifications
- > Carpeting
- > Decorating
- > Frameless glazing
- > Partitioning
- > Voice and data Installation
- > Wall finishes

furniture

- > New desking, seating & storage
- > Storage wall
